## Computer Controlled Routing Technology

Mini

CNC

Mini

trend ®

routing technology

The latest miniature engraving machine for 2D & 3D engravings, photo images and routing projects, complete with easy to learn software.

CNC MINI MACHINE

Computer controlled routing technology offers affordability and high performance. Fully guarded for maximum safety.

Multi-functional

SOFTWARE

Graphical User Interface
The vivid interface and simple operation has been designed for general users.

Digital Photo
Engrave your photos on wood and acrylic easily. You just need to provide a digital photo. The EDIT software can read file formats such as: .bmp, .jpg, .png.

High Compatibility
Compatible with ArtCAM and BMP programs.

Save Money
With our software suite: EDIT and CNC, you don't need to buy other off-the-shelf software to complete your own engraving project.

Vivid Interface

OPERATION

Easy to Operate
You don't need to think how to use it. Just follow 4C (Click, Convert to G code, Command, Carve). Use the game pad to control the co-ordinates or the computer interface.

Design
This product has been designed especially for beginners. The operation is very simple and straightforward.

Compact and Portable
You can move this compact and portable desktop machine from place to place. You can engrave wherever and whenever you like.

All in One
You can drill, rout, mill, cut, shape and carve with this machine.

Multi-function
Ideal for school teaching materials, hobbyist, DIY projects and business.
