**DC400 HALF BLIND PIN STOPS**  
**REF. DC400/10**

Thank you for purchasing this Trend product, which will give lasting performance if used in accordance with these instructions.

In this package you will find one left hand and one right hand half blind pin stop, for use with DC400 Dovetail Centre.

The half blind pin stops provide an adjustable positioning stop for half blind (lapped) pin pieces. They can be used with all pin pieces including rebated drawer fronts.

**Half Blind Pin Stops**

1. Loosen the screws.
2. Install a pin stop at each end of your layout in place of the standard half blind pin guides. Install from below.
3. Install the component pin piece with the correct projection as shown in the DC400 manual for half blind joints
4. Slide the nut up against the pin piece and tighten the screw.

## Safety Steps

1. Always wear eye protection such as goggles, ear protection and use effective respiratory protection.
2. Before making adjustments to the router, like changing the cutter, make sure the power is isolated correctly.
3. Before re-connecting to the mains supply, make sure the power switch on the router is in the 'off' position.
4. Do not switch on the router with the cutter in contact with the workpiece.
5. Before making adjustments always allow the cutter to stop rotating.
6. When routing keep your hands, hair and clothing clear of the cutter.
7. Make sure you follow the instructions which came with your router.
8. Ensure all visors, guards and dust extraction are fitted.
9. Trial cuts should be made in waste material before starting any project.
