This safety goggle is designed to protect user against eye injuries, through mechanical impact, flying particles, droplet or splash.

SAFETY GOGGLES REF. SAFE/GOG/B

Thank you for purchasing this product, which should give lasting performance if used in accordance with these instructions.

USERS INFORMATION FOR SAFETY GOGGLES

TYPE: SG-271 / high speed particles – medium and liquid splash.

CAUTION

These safety goggles do not provide unlimited eye protection. For your own protection read these instructions completely before using this eye protection.

STANDARD NUMBER

These safety goggles comply with the requirements of European Standard EN166:2001 "Personal Eye-Protectors-specifications".

MARK

The appropriate markings * can be found on the lens and frame at the top.

*CE mark with significant code of the testing agency concerned. The notified body for eye protection code is: SG-271 = 0501 (CRITT)

MATERIAL DECLARATION

No parts of the eye protector, which are in contact with the wearer, shall be made of materials, which are known to cause any skin irritation.

STORAGE

When not in use, it is recommended to store the safety goggles in a clean and dry polybag or case for optimal protection.

DIRECTION FOR USE

These goggles have been designed for your personal safety. They must be worn for the whole duration of exposure to hazards, leave the work area if dizziness or irritation occurs, or if the goggles become damaged.

CLEANING & MAINTENANCE & DISINFECTIONS

To maintain your goggles in good condition:

- Do not use abrasive materials, clean and rinse in warm soapy water and dry with a soft cloth.
- Any part of the eye protector, which comes into contact with the wearer, should be disinfected by alcohol.

FIELD OF USE (PROTECTION CAPABILITIES AND PERFORMANCE CHARACTERISTICS)

These safety goggles are designed to protect the user against eye injuries through mechanical impact, flying particles, droplets or splashes.

REPLACEMENT OF SPARE PARTS AND ACCESSORIES

Only use original spare parts. To replace the lens, you should ensure the compatibility of marking and the correct lens is fitted.

DURATION OF USE

Inspect for damage regularly. When the frame has become hard and brittle, the safety goggles should be replaced.

WARNINGS

This product is for eye protection against moderate impact hazards but NOT unbreakable.

Do not modify or alter the eye protector.

A pitted or scratched lens will reduce vision and seriously reduce protection and should be immediately replaced.

Materials, which may come into contact with the wearers' skin, could cause allergic reactions to susceptible individuals.

Always check with supervisory personnel to ensure you are being given the proper protection relative to working conditions. Consult relative European Standards.
