

ELLIPSE & CIRCLE CUTTING JIG

Designed to enable virtually any router to cut ellipses and circles.

- Used for corner tables, arches, desks and mirrors.

MINI ELLIPSE & CIRCLE CUTTING JIG

The Mini Ellipse Jig is ideal for routing elliptical picture frames, mirrors, clocks and small coffee tables etc.

- Working on the same principle as the Ellipse Jig, the plastic Mini Ellipse Jig will cut much smaller ellipses.
- The main plate will accept most makes of small routers for which screws are provided.
- By removing one slide and using a special pin, the jig can be used to accurately cut circles.
- For marking out prior to cutting, the plate can be fitted with a pencil plug. The jig is then turned into a drawing instrument.
