

INSTRUCTIONS FOR

HEADPHONES BLUETOOTH FOLDABLE WITH MICROPHONE & HANDSFREE FUNCTION

MODEL NO: **BT001**

Thank you for purchasing a Sealey product. Manufactured to a high standard, this product will, if used according to these instructions, and properly maintained, give you years of trouble free performance.

IMPORTANT: PLEASE READ THESE INSTRUCTIONS CAREFULLY. NOTE THE SAFE OPERATIONAL REQUIREMENTS, WARNINGS & CAUTIONS. USE THE PRODUCT CORRECTLY AND WITH CARE FOR THE PURPOSE FOR WHICH IT IS INTENDED. FAILURE TO DO SO MAY CAUSE DAMAGE AND/OR PERSONAL INJURY AND WILL INVALIDATE THE WARRANTY. KEEP THESE INSTRUCTIONS SAFE FOR FUTURE USE.

Refer to
Instruction
Manual

1. SAFETY

- ✓ Keep headphones away from damp - keep dry.
- ✗ **DO NOT** expose the headphones to direct sunlight or place in hot areas.
- ✗ **DO NOT** expose the headphones to cold.
- ✗ **DO NOT** drop or knock the headphones, the interior circuits may be damaged.
- ✗ **DO NOT** use chemicals or detergents to clean the headphones.

2. INTRODUCTION

Comfortable cushioned over ear design with foldable headband for storage. Internal 3.7V lithium-polymer battery, for up to 10 hours listening time. On ear control allows user to adjust volume, skip tracks and answer calls. Built in microphone for phone calls. Extendable arms to suit required size. Supplied with USB cable for micro USB charging port and a 3.5mm mini jack audio cable.

3. SPECIFICATION

Model no:BT001
 Input supply:.....5V 500mA
 Battery: 3.7V 320mAh Li-poly
 Charging time:.....4hr
 Operating time:10hr
 Weight:..... 0.18kg

4. FUNCTIONS

- 4.1. Pairing with any mobile phone with built-in Bluetooth devices (e.g. iPhone, HTC, Samsung) and Tablet PC (such as iPad).
 - Answer, end and reject call from the headset
 - Redial last number.
 - Voice dial.
 - Listen to music wirelessly
 - Remote control buttons on the headset for pause / play / last song / next song / last call re-dial / voice control.
- 4.2. Automatic switching between conversation and music.
- 4.3. Automatic connecting to the last paired device when turn on the headset.
- 4.4. Battery indicator feature is available on iOS5, 6, 7 on iPhone and iPad. It shows the battery status for the headset without installing any Apps.
- 4.5. Multilink technology allows you to connect to two devices at the same time. All you need to do is simply repeat the pairing process for the second device and manually reconnect from the first device.
- 4.6. Voice prompt now comes with five status alerts.
 Power on, power off, pairing, pairing completed, incoming call (for iPhone, you will directly hear the ringtone instead of "in coming call"). The voice notice comes directly through the headset and indicates its current status.
Note: Even though the paired device and headset support the same Bluetooth profiles, the functions may be different due to the specification difference of the paired devices.

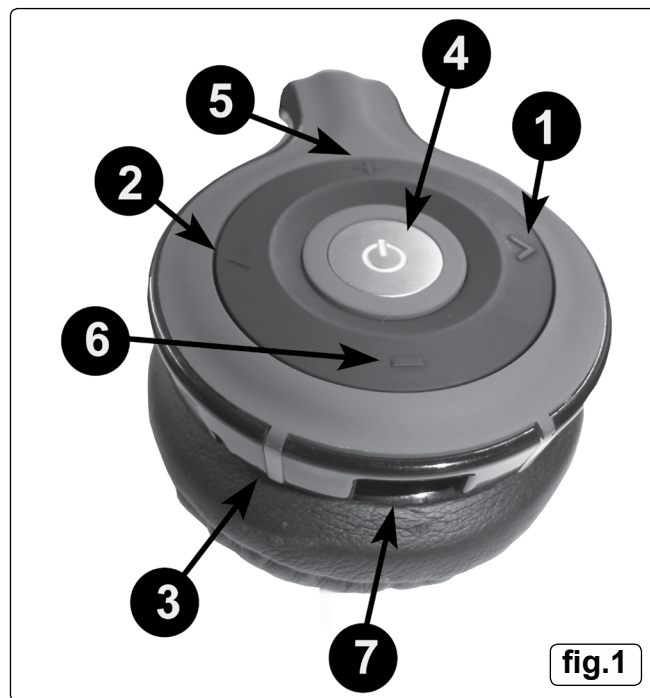

fig.1

- 1 > : next song
- 2 < : last song
- 3 LED indicator
- 4 Multifunction button (MFB):
 - On/off
 - Answer phone
 - Stop call
 - Voice dial
 - Redial last number
 - Pause and play
- 5 + : volume up
- 6 - : volume down
- 7 Micro USB charging port

5. OPERATION

5.1. Charging

Note: turn off the headset before charging

- 5.1.1. Initial charging: make sure the battery has been charged fully before use.
- 5.1.2. Next time: When you hear warning tone of “DU DU DU” and at the same time the red light blinks two times, it means that battery has almost run out.
- 5.1.3. Insert USB charging cable into USB port which provides 5V power (such as AC/DC USB adapter or PC USB port). Connect charging cable to the Micro USB charging port of headset.
- 5.1.4. When the red light is on, the headset is in charging.
- 5.1.5. When the blue light is on, see fig. 1.3, the headset is fully charged.
- 5.1.6. It takes about 4 hours to charge the headset fully.

5.2. How to use

Function	Operation	LED Indicator	Voice Prompt
Switch on	Press MFB for 3 seconds and release when blue LED is on	Blue LED blinks 3 times	Power on
Switch off	Press the MFB for 5 seconds and release when the red LED is on	Red LED blinks 3 times	Power off

5.3. Pairing the headset with Bluetooth devices

5.3.1. How to enter pairing mode

Function	Operation	LED Indicator	Voice Prompt
Entering pairing mode	Make sure the headset is off. Press and hold MFB button for 6 seconds, and release it till the red and blue LEDs blink alternately	Red and blue LEDs Blink alternately	Pairing

5.3.2. Pairing the headset with a Bluetooth mobile phone

Note: Please make sure your mobile phone has a Bluetooth function that can be used.

Note: Specific pairing procedures may vary with different mobile phones. Please refer to your mobile phone manual for further information.

- 5.3.2.1. Please keep the headset and mobile phone within 1 meter range when pairing.
- 5.3.2.2. Switch the headset into pairing mode (LED is red and blue blinking), see 5.3.1.
- 5.3.2.3. Start the Bluetooth function of mobile phone and search for new Bluetooth devices.
- 5.3.2.4. After searching, select “BT001” in the Bluetooth device list.
- 5.3.2.5. According to the indication on the mobile phone, enter password or PIN No: “0000”, and press the key of “Yes” or “confirmed”, (it depends on the Bluetooth device setting).
- 5.3.2.6. After successful pairing, select “BT001” in the Bluetooth device list, and press “connect”.
- 5.3.2.7. After connecting successfully, the blue LED of the headset will keep blinking.

5.4. Reconnecting to a Bluetooth device

5.4.1. Automatic connecting

- 5.4.1.1. Every time the headset is switched on, it will connect to last connected device automatically, of course the source device Bluetooth must be “on”.

5.4.2. Manual connecting to last connected HFP device

- 5.4.2.1. When the headset is in standby mode and doesn't connect to any HFP devices, short press MFB button once, and it will connect to last connected source device automatically.

- 5.4.2.2. Simply tap the MFB button on the headset.

Note: Before connecting to a Bluetooth device, please turn on the Bluetooth device's Bluetooth function.

Note: On some Bluetooth devices, some Nokia mobile phones for example, you have to allow automatic connecting in the mobile phone's settings. Please refer to your mobile phone's manual for further information.

5.5. **Making calls with the headset**

Function	Headset status	Operation
Voice dial	Standby mode	Press and hold MFB button for 1 second, release it when indication sound is heard, then make the call.
Redial last number	Standby mode	Short press MFB twice quickly
Volume up	Conversation mode	Short press + key
Volume down	Conversation mode	Short press - key
Answer call	Ringling	Short press MFB
Reject call	Ringling	Press and hold MFB for 1 second and release when indication sound is heard.

- 5.5.1. Not all the mobile phones support all the functions listed above. Please refer to the instruction of your mobile phone.
- 5.5.2. Some functions and indication tones may vary with different mobile phones.
- 5.5.3. When the volume is adjusted to max or min, you will hear an indication tone.
- 5.5.4. For some mobile phones, when you press the key for accepting the call on the phone, the conversation will be sent to the mobile phone. At this time, you can switch the call to headset by using the conversation switch button or through an operation on the mobile phone. Please refer to the instruction of your mobile phone for further information.

5.6. **Playing Music**

- 5.6.1. When the headset connects with a mobile phone or Bluetooth transmitter, you can enjoy music through headset wirelessly.

Function	Headset status	Operation
Pause	Playing music	Short press MFB
Play	Pausing	Short press MFB
Next song	Playing music	Short press > key
Last song	Playing music	Short press < key
Volume up	Playing music	Short press + key
Volume down	Playing music	Short press - key

- 5.6.2. For some of mobile phones, when they are playing music, the music will transmit to the speaker of mobile phone. You have to choose “transmit the sound through Bluetooth” in the “setting” of music play interface, and then choose “BH-580” in the device list. The music will be transmitted to the headset. Please refer to the instruction of your mobile phone for further information.
- 5.6.3. When the volume of headset is adjusted to max. or min, you will hear a indication DU DU tone.
- 5.6.4. To remote control the function of last song/next song/pause, it needs your mobile phone or Bluetooth transmitter supports AVRCP. Please refer to the instruction of your mobile phone or Bluetooth transmitter for further information.

5.7. **LED Indications**

5.7.1. **Battery charging mode**

LED indicator	Headset status
Red LED is on	Charging
Blue LED is on	Charging finished

5.7.2. **Operation mode**

LED indicator	Headset status
Red and blue LEDs blink alternately	Pairing mode
Blue LED blinks quickly twice every second	Not connected to a device
Blue and red LED quickly blinks three times every 2 seconds	Set up HFP and A2DP connection
Red LED blinks twice every 20 seconds	Low power

5.8. **Low power indication tone**

- 5.8.1. “DU” tones every 20 seconds.

Environmental Protection
 Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment.
 When the product becomes completely unserviceable and requires disposal, drain off any fluids (if applicable) into approved containers and dispose of the product and the fluids according to local regulations.

WEEE Regulations
 Dispose of this product at the end of its working life in compliance with the EU Directive on Waste Electrical and Electronic Equipment (WEEE). When the product is no longer required, it must be disposed of in an environmentally protective way. Contact your local solid waste authority for recycling information.

Battery Removal
 The battery is on the inner right side of the headphones. Pull off the ear cushion, use a screw or knife to press down the locking latch. Pull off the speaker. Undo the screw on the centre of the speaker body. Remove speaker body and turn upside down. Release the two screws from the main case. Separate front and back case. Cut the cables and remove the battery. Under the Waste Batteries and Accumulators Regulations 2009, Jack Sealey Ltd are required to inform potential purchasers of products containing batteries (as defined within these regulations), that they are registered with Valpak's registered compliance scheme. Jack Sealey Ltd's Batteries Producer Registration Number (BPRN) is BPRN00705.

NOTE: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice.

IMPORTANT: No liability is accepted for incorrect use of this product.

WARRANTY: Guarantee is 12 months from purchase date, proof of which will be required for any claim.
