

12V Ø71MM CORDLESS POLISHER - BODY ONLY

MODEL NO: **CP1205**

Thank you for purchasing a Sealey product. Manufactured to a high standard, this product will, if used according to these instructions, and properly maintained, give you years of trouble free performance.

IMPORTANT: PLEASE READ THESE INSTRUCTIONS CAREFULLY. NOTE THE SAFE OPERATIONAL REQUIREMENTS, WARNINGS & CAUTIONS. USE THE PRODUCT CORRECTLY AND WITH CARE FOR THE PURPOSE FOR WHICH IT IS INTENDED. FAILURE TO DO SO MAY CAUSE DAMAGE AND/OR PERSONAL INJURY AND WILL INVALIDATE THE WARRANTY. KEEP THESE INSTRUCTIONS SAFE FOR FUTURE USE.

Refer to instruction manual

Wear protective gloves

Wear eye protection

Wear face mask

1. SAFETY

- ✓ Disconnect the polisher from the battery unit before changing accessories, servicing or performing any maintenance.
- ✓ Maintain the polisher and battery in good condition. Check moving parts alignment on a regular basis.
- ✓ Replace or repair damaged parts. Use an authorised service agent and recommended parts only. Unauthorised parts may be dangerous and will invalidate the warranty.
- ✓ Ensure the polisher is switched off before installing the battery pack.
- ✓ Keep the polisher and charger clean for best and safest performance.
- ✓ Remove ill fitting clothing. Remove ties, watches, rings and other loose jewellery and contain long hair.
- ✓ Evaluate your working area before using the polisher e.g. ceilings, floors and enclosures may contain electrical items or water piping.
- ✓ Ensure battery pack is correctly inserted into the polisher handle and latched in place before attempting to switch on polisher.
- ✓ Secure loose work pieces with a clamp, vice or other adequate holding device.
- ✓ Avoid unintentional starting.
- ✓ Wear approved safety eye protection (standard spectacles are not adequate).
- ✓ Maintain correct balance and footing. Ensure the floor is not slippery and wear non-skid shoes.
- ✓ Keep children and unauthorised persons away from the working area.
- ✓ Store polisher and charger in a safe, dry, childproof area where the temperature will not exceed 104°F (40°C).
- ✗ **DO NOT** use the polisher where there are flammable liquids, solids or gases, such as paint solvents, etc.
- ✗ **DO NOT** allow children to operate the polisher.
- ✗ **DO NOT** operate the polisher if any parts are missing as this may cause failure and/or personal injury.
- ✗ **DO NOT** hold unsecured work piece in your hand.
- ✗ **DO NOT** leave the polisher operating unattended.
- ✗ **DO NOT** carry the polisher with your finger on the power switch.
- ✗ **DO NOT** use the polisher for a task it is not designed to perform.
- ✗ **DO NOT** operate the polisher when you are tired or under the influence of alcohol, drugs or intoxicating medication.
- ✗ **DO NOT** get the polisher or battery wet or use in damp or wet locations.

2. INTRODUCTION

Compact, lightweight cordless polisher. Comfortable composite housing with soft grip to reduce vibration. Two speed settings and variable speed control trigger make this polisher easy to use. Integral LED battery level indicator. Supplied with side handle for greater control of use.

3. SPECIFICATION

Model No. CP1205
 Battery options
 12V 1.5Ah Li-ion, 12V 3Ah Li-ion, 12V 4Ah Li-ion (not included)
 Consumable parts
 CP1200BP - Battery 12V 1.5Ah,
 CP1200BP3 - Battery 12V 3Ah,
 CP1200BP4 - Battery 12V 4Ah (not included)
 Free speed 0-2500rpm/0-7500rpm
 Noise power/pressure 90/79dB(A)
 Vibration/uncertainty 4.213/1.5m/s²
 Pad size Ø71mm
 Replacement parts CP1200MC - Mains charger
 Thread size 5/16"UNF

4. OPERATION

fig.1

- WARNING!** Before use, ensure that you have read and understood Section 1 Safety Instructions.
- 4.1. To attach/remove the applicator pad depress the chuck lock button behind the chuck (fig.1) and screw/unscrew the applicator pad.
- 4.2. Release the chuck lock button and check that applicator pad is locked into chuck before switching on.
- 4.3. Attach the battery to the sander. The battery charge level indicator LEDs (fig.1) show charge (three green lights indicate full charge).
- 4.4. Set the required speed by use of the speed selector switch (fig.1).
- 4.5. Unlock the drive mechanism by use of the slide switch (fig.1).
- 4.6. Grip the side handle (not shown) and start the polisher by gentle and slow application of pressure on the trigger (fig.1).
- 4.7. Increase/decrease the speed of the polisher using the variable speed control trigger (fig.1) to suit the task in hand.
- 4.8. Ensure that the above features are working correctly prior to use.

5. MAINTENANCE

- WARNING:** Always disconnect the battery before carrying out any inspection, maintenance or cleaning.
- 5.1. **General inspection**
 - 5.1.1. Regularly check that all the fixing screws are tight.
 - 5.1.2. Repairs should only be carried out by an authorised service centre.
- 5.2. **Cleaning**
 - WARNING:** Always wear protective equipment including eye protection and gloves when cleaning this tool.
 - 5.2.1. Keep your tool clean at all times. Dirt and dust will cause internal parts to wear quickly, and shorten the device's service life.
 - 5.2.2. Clean the body of your machine with a soft brush, or dry cloth.
 - 5.2.3. Never use caustic agents to clean plastic parts. If dry cleaning is not sufficient, a mild detergent on a mildly damp cloth is recommended.
 - 5.2.4. Water must never come into contact with the tool. Ensure the tool is thoroughly dry before using it.
 - 5.2.5. If available, use clean, dry, compressed air to blow through the ventilation holes (where applicable).

WARNING! – Risk of Hand Arm Vibration Injury.

This tool may cause Hand Arm Vibration Syndrome if its use is not managed adequately.

This tool is subject to the vibration testing section of the Machinery Directive 2006/42/EC.

This tool is to be operated in accordance with these instructions.

Measured vibration emission value (a): 4.213m/s²

Uncertainty value (k): 1.5m/s²

Please note that the application of the tool to a sole specialist task may produce a different average vibration emission. We recommend that a specific evaluation of the vibration emission is conducted prior to commencing with a specialist task.

A health and safety assessment by the user (or employer) will need to be carried out to determine the suitable duration of use for each tool.

NB: Stated Vibration Emission values are type-test values and are intended to be typical.

Whilst in use, the actual value will vary considerably from and depend on many factors.

Such factors include; the operator, the task and the inserted tool or consumable.

NB: ensure that the length of leader hoses is sufficient to allow unrestricted use, as this also helps to reduce vibration.

The state of maintenance of the tool itself is also an important factor, a poorly maintained tool will also increase the risk of Hand Arm Vibration Syndrome.

Health surveillance.

We recommend a programme of health surveillance to detect early symptoms of vibration injury so that management procedures can be modified accordingly.

Personal protective equipment.

We are not aware of any personal protective equipment (PPE) that provides protection against vibration injury that may result from the uncontrolled use of this tool. We recommend a sufficient supply of clothing (including gloves) to enable the operator to remain warm and dry and maintain good blood circulation in fingers etc. Please note that the most effective protection is prevention, please refer to the Correct Use and Maintenance section in these instructions. Guidance relating to the management of hand arm vibration can be found on the HSC website www.hse.gov.uk - Hand-Arm Vibration at Work.

WEEE REGULATIONS

Dispose of this product at the end of its working life in compliance with the EU Directive on Waste Electrical and Electronic Equipment (WEEE). When the product is no longer required, it must be disposed of in an environmentally protective way. Contact your local solid waste authority for recycling information.

ENVIRONMENT PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.

Note: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice.

Important: No Liability is accepted for incorrect use of this product.

Warranty: Guarantee is 12 months from purchase date, proof of which is required for any claim.
