Wear protective clothing

1. SAFETY

- WARNING!** Ensure all Health & Safety, local authority, and general workshop practice regulations are strictly adhered to when using product.
 - WARNING!** Ensure the engine and cooling system have cooled down, before opening the radiator cap.
 - ✓ Maintain tools in good and clean condition for best and safest performance. **DO NOT** use tester if damaged.
 - ✓ Wear suitable clothing to avoid snagging. **DO NOT** wear jewellery and tie back long hair.
 - ✓ Wear approved eye protection. A full range of personal safety equipment is available from your Sealey stockist.
 - ✓ Operate in a well ventilated area and avoid breathing in exhaust fumes.
 - ✓ Always keep a fire extinguisher close by, that is suitable for fuel/electrical/chemical fires.
 - ✓ Keep yourself, tools, and test equipment away from hot engine parts.
 - ✗ **DO NOT** use this tool for any purpose other than that for which it is designed.
 - ✓ Never lay tools on the vehicle's battery. This may short the terminals together, causing harm to yourself, the tools, or the battery.
 - ✓ Account for all tools and parts being used and do not leave any in the engine bay.
 - ✓ Keep children and other unauthorised persons away from the working area.
 - ✓ Keep test kit parts clean, store parts in the carry case, and keep this in a safe, dry, childproof location.
- IMPORTANT:** Always refer to the vehicle manufacturer's service instructions, or a proprietary manual to establish the current procedure and data. These instructions are provided as a guide only.

2. INTRODUCTION

Cooling system pressure testing kit, designed for commercial vehicles. Pressure pump with gauge quickly identifies faulty gaskets, radiators, weeping pipes and other causes of coolant loss.

3. SPECIFICATION

Model no: CV0011.V2

Applications: DAF, Iveco, Man, Mercedes, Renault, Scania, Volvo

4. OPERATION

4.1. SETTING UP

- WARNING!** Ensure the engine and cooling system have cooled down, before opening the radiator cap.
- 4.1.1. Remove the radiator cap and clean around the radiator fitting.
- 4.1.2. Select the correct adaptor for the make of vehicle to be tested. Screw the adaptor onto the radiator, checking that the rubber gasket is correctly seated.
- 4.1.3. Connect the radiator tester to the adaptor by pushing on the quick-release coupling until it clicks.

4.2. CHECKING THE SYSTEM

- 4.2.1. Pump the pump until the gauge indicates approximately 1Bar and leave for one minute.
- 4.2.2. If pressure remains constant for one minute, it will indicate that the system is in good condition.
- 4.2.3. If the pressure falls, it indicates that the system has a leak somewhere, resulting in loss of pressure.
- 4.2.4. Check the system for water leaks, and when located, repair accordingly.
- 4.2.5. If there is pressure loss, but no visible external water leakage, check the condition of the head gasket.
- 4.2.6. Re-test system after repair, to ensure there are no further leaks in the system and that repair is OK.
- 4.2.7. To remove adaptor, release pressure by pressing the valve on the side of the coupling, then remove the quick-release coupling by pulling back on the sleeve. Remove the adaptor and re-fit the radiator cap.

5. APPLICATIONS

Make	Model	Year	Cap
Daf	LF55	01-	06
Daf	XF95	02-06	01
Daf	XF105	05-	01
ERF	EC RANGE	96-03	01

ENVIRONMENT PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.

Note: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice. Please note that other versions of this product are available. If you require documentation for alternative versions, please email or call our technical team on technical@sealey.co.uk or 01284 757505.

Important: No Liability is accepted for incorrect use of this product.

Warranty: Guarantee is 12 months from purchase date, proof of which is required for any claim.
