

Thank you for purchasing a Sealey product. Manufactured to a high standard this product will, if used according to these instructions and properly maintained, give you years of trouble free performance.

IMPORTANT: PLEASE READ THESE INSTRUCTIONS CAREFULLY. NOTE THE SAFE OPERATIONAL REQUIREMENTS, WARNINGS & CAUTIONS. USE THE PRODUCT CORRECTLY AND WITH CARE FOR THE PURPOSE FOR WHICH IT IS INTENDED. FAILURE TO DO SO MAY CAUSE DAMAGE AND/OR PERSONAL INJURY AND WILL INVALIDATE THE WARRANTY. PLEASE KEEP INSTRUCTIONS SAFE FOR FUTURE USE.

1. SAFETY

1.1. GENERAL

- x **DO NOT** shine directly into your, other person's or animal's eyes.
- x **DO NOT** allow children to use the worklight.
- x **DO NOT** handle or move the worklight whilst it is being charged.
- x **DO NOT** use the worklight if you suspect that the battery or the worklight casing is damaged.
- x **DO NOT** leave battery in a discharged state: recharge battery immediately. If the worklight is not in use, recharge the battery every 3 to 4 weeks.

1.2 ELECTRICAL SAFETY FOR USE OF CHARGER.

USE ONLY THE SUPPLIED CHARGER PLUG FOR CONNECTING WORKLIGHT TO THE POWER SUPPLY.

- WARNING!** It is the user's responsibility to read, understand and comply with the following electrical instructions:
You must ensure the risk of electric shock is minimised by the installation of appropriate safety devices. An RCCB (Residual Current Circuit Breaker) should be incorporated in the main distribution board. We also recommend that an RCD (Residual Current Device) is used with all electrical products, particularly portable equipment which is plugged into an electrical supply not protected by an RCCB.

You must also read and understand the instructions concerning electrical safety paragraph 1.2.1 onwards.

- 1.2.1 **The Electricity At Work Act 1989** requires all portable electrical appliances, if used on business premises, to be tested by a qualified electrician, using a Portable Appliance Tester (PAT), at least once a year.

- 1.2.2 **The Health & Safety at Work Act 1974** makes owners of electrical appliances responsible for the safe condition of the appliance and the safety of the appliance operator. **If in any doubt about electrical safety, contact a qualified electrician.**

1.2.3 You must ensure that you:

- ✓ Inspect the charger plug, cable and connector for wear and damage to ensure items are safe before connecting to the mains power supply. If worn or damaged **DO NOT** use.
- ✓ Important: Check that the voltage marked on the charger plug is the same as the power supply to be used.
- ✓ Uncoil the cable between charger and the work light.
- x **DO NOT** pull the charger plug from the mains socket by the lead.
- x **DO NOT** use any other type of charger with this worklight.
- x **DO NOT** try to take the charger plug apart.
- x **DO NOT** use the charger plug to charge or power any other electrical item.
- x **DO NOT** get the charger wet, or use in wet, damp conditions (for indoor use only).
- WARNING! NEVER** substitute a standard 13amp 3-pin plug, or any other type of plug, for the charger plug.

NOTE! LED arrays are designed to allow individual LEDs to cease functioning without causing the entire array to fail. This could be as a result of shock or impact. Shock or impact will invalidate warranty.

2. INTRODUCTION

Robust housing, with rubber handle and end cap featuring 18 super bright Osram LEDs. Small design is ideal for use in engine bays, under-body inspection and low-light work areas, particularly where access is restricted. 2 LED charging indicators.

3. CHARGING

NOTE! When new, before first use, charge the LED1807 fully.

The worklight is fully charged when the green LED is displayed and the red LED goes out.

When the worklight is not in use, periodically charge to maintain battery condition.

- 3.1 Uncoil the charging lead and plug the connector into the charging socket at the base of the work light.
- 3.2 Plug the power lead from the charger into the mains supply.
- 3.3 Charger indicator light conditions:
RED: Charging.
GREEN: Fully charged and ready for use.
- 3.4 Unplug the charger from the mains supply. Unplug the charging lead from the inspection lamp.
- 3.5 The inspection lamp will operate continuously for 2.5 hours on one charge.

4. OPERATION

- 4.1 **DIRECT THE LENS AWAY FROM YOUR EYES BEFORE SWITCHING ON.** Switch the inspection lamp ON & OFF using the rocker switch at the base of the worklight.

Environmental Protection.

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and pack aging should be sorted, taken to a recycle centre and disposed of in a manner which is compatible with the environment.

Ni-Cd

Rechargeable battery contains nickel cadmium (NiCad). It is recyclable. Take to your local recycling centre to be disposed of properly. Do not incinerate NiCad battery as it may explode when exposed to fire. Do not attempt to open battery pack.

This marking indicates that this product should not be disposed of with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources.

To dispose of your used device please contact your retailer for advice on safe recycling.

Under the Waste Batteries and Accumulators Regulations 2009, Jack Sealey Ltd are required to inform potential purchasers of products containing batteries (as defined within these regulations), that they are registered with Valpak's registered compliance scheme.

Jack Sealey Ltd's Batteries Producer Registration Number (BPRN) is BPRN00705

Class III luminaire suitable for mounting on normal flammable surfaces

NOTE: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice.

IMPORTANT: No liability is accepted for incorrect use of this product.

WARRANTY: Guarantee is 12 months from purchase date, proof of which will be required for any claim.
