The battery fitted to this light is considered to be a consumable item and its ability to accept a charge will reduce over time. We will provide warranty against mechanical and electrical defect for a period of one year - this does not cover fair wear and tear. If the battery is not properly charged before first use, or regularly conditioned, its capacity will diminish. Under these circumstances we will not replace the battery regardless of whether it is less than one year old.

Note: The lithium battery does not suffer from memory effect and once fully charged may be stored for up to six months without another charge.

4. OPERATION

- 4.1. Connect the USB lead to the socket on the side of the light. See fig.1. Connect the other end into a charging socket. Turn on power supply. The ON/OFF button will flash to indicate charging. Once light has been charged the ON/OFF button stops flashing.
- 4.2. The charging time to fully charge takes 2hrs. The ON/OFF button will flash when the light requires charging.
- ❑ **WARNING!** Never direct light into eyes.
- 4.3. To operate the light press ON/OFF button. The button illuminates to confirm operation. See fig.2. To select the brightness level press the ON/OFF button until desired brightness. There are four brightness settings and a super beam to choose from.
- 4.4. To use the super beam function, hold the power button down, the light will illuminate up to 2500lms for 30 seconds.
- 4.5. To switch the light off press the ON/OFF button until the light turns off.
