3. USE

- 3.1. Remove paper bar (8) from frame and remove washers (6), springs (23) and retainers (5).
- 3.2. Slide paper bar (8) through centre of masking paper roll so that, when reinstalled in frame, paper will come from top of roll towards front of dispenser.
- 3.3. Replace washers (6), springs (23) and retainers (5), as shown in fig.2, at each end of roll. If two narrow rolls are used fit one spring and paper washer per roll and use the two extra paper retainers.

- 3.5. Thread leading edge of paper between paper spring (17) and guide edge of paper cutter (3), see fig.1.
- 3.6. Press masking tape rolls onto tape reels (20) so that tape leaves bottom of rolls towards the rear of the dispenser. Rolls may be positioned relative to the masking paper edges by adjusting wing nuts (18).
