2. INTRODUCTION

An integral, quiet running fan will quickly and conveniently dry and cool your helmet whilst in the bag. Inhibiting the build-up of damp and odour. Helps prevent the build-up of bacteria, so your helmet smells fresher. Improves the life span of the linings and impact materials in your helmet. The unit comes with a USB adapter for connection to your vehicle or to a power pack. Making it ideal for rides out, race/track days, as well as using at home after your ride out/commute. Made from a strong canvas, and the inner is fully lined to best protect your equipment.

3. OPERATION

ENVIRONMENT PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.
