

EV/HYBRID COOLING SYSTEM VACUUM PURGE & REFILL KIT

MODEL NO: VS0047

Thank you for purchasing a Sealey product. Manufactured to a high standard, this product will, if used according to these instructions, and properly maintained, give you years of trouble free performance.

IMPORTANT: PLEASE READ THESE INSTRUCTIONS CAREFULLY. NOTE THE SAFE OPERATIONAL REQUIREMENTS, WARNINGS & CAUTIONS. USE THE PRODUCT CORRECTLY AND WITH CARE FOR THE PURPOSE FOR WHICH IT IS INTENDED. FAILURE TO DO SO MAY CAUSE DAMAGE AND/OR PERSONAL INJURY AND WILL INVALIDATE THE WARRANTY. KEEP THESE INSTRUCTIONS SAFE FOR FUTURE USE.

Refer to instructions

Wear eye

Wear ear protection

1. SAFETY

- Ensure all workshop safety rules, regulations and conditions are complied with when using this tool.
- □ WARNING! Disconnect from the air supply before changing accessories or servicing.
- Maintain the equipment in good condition and replace any damaged or worn parts. Use genuine parts only. Unauthorised parts may be dangerous and will invalidate the warranty.
- **WARNING!** Check that correct air pressure is maintained.
- Keep air hose away from heat, oil and sharp edges. Check air hose for wear before each use and ensure that all connections are secure
- ✓ Wear approved safety eye and ear protection (available from your Sealey supplier).
- ✓ Keep this tool clean and in good working order for best and safest performance.
- DO NOT use the tool for a task it is not designed to perform.
- □ WARNING! DO NOT use the tool if it is damaged or thought to be faulty. Contact your local service agent.
- **DO NOT** drop, throw or abuse the tool.
- **DO NOT** carry the tool by the air hose, or yank the hose from the air supply.
- DO NOT operate if you are tired or under the influence of alcohol, drugs or intoxicating medication.
- **DO NOT** direct air from the air hose, at yourself or others.
- ✓ Keep children and unauthorised persons away from the work area.
- ✓ When not in use, disconnect from the air supply and store in a safe, dry, childproof location.
- □ **WARNING!** The warnings, cautions and instructions discussed in this instruction manual cannot cover all possible conditions and situations that may occur. It must be understood that common sense and caution are factors which cannot be built into this product, but must be applied by the operator.

2. INTRODUCTION

Dramatically reduces cooling system refill time, without mess and without introducing airlocks. No more time-consuming cooling system bleeding and no messy spills to clean up. Simply plug into the workshop air line, select appropriate cap and attach it to the cooling system header tank and create a vacuum. Hook attachment and long reach hoses provide tidy operating space. Kit includes specific caps for full electric, plug in hybrid and conventional internal combustion engines. Supplied in a storage case.

3. SPECIFICATION

Model No:	VS0047
Air Consumption:	6.3cfm
Air Inlet Size:	1/4"BSP
Fluid Hose Length:	Coolant Suction Hose - 1500mm Coolant Refill Hose - 1000mm Drain Hose - 590mm
Recommended Air Pressure:	90psi

4. AIR SUPPLY

- 4.1. Recommended hook-up is shown in fig.1. Ensure that both coolant and vacuum taps are in the 'off' position (fully to the left or right) when connecting the air supply.
- **WARNING!** Ensure that the air supply is clean and does not exceed 100psi. Too high an air pressure or unclean air will shorten the life of the filler due to excessive wear, and may be dangerous, causing damage and/or personal injury.
- 4.1.1. Drain the air tank on the compressor daily.
- 4.1.2. Clean compressor air inlet filter weekly.
- 4.1.3. Line pressure should be increased to compensate for unusually long air hoses (over 8 metres). The minimum hose size should be 1/4" I.D. And fittings must have the same internal bore.
- 4.1.4. Keep hose away from heat, oil and sharp edges. Check hose for wear and make certain that all connections are secure.

5. CONTENTS

6. OPERATION

■ **WARNING!** Ensure that you read, understand and apply safety instructions before use.

6.1. PREPARATION

■ WARNING! Disconnect from the air supply before changing accessories, servicing or performing maintenance. Replace or repair damaged parts.

NOTE: Use genuine parts only. Non genuine parts may be dangerous and will invalidate the warranty. Air supply faults may cause loss of power or erratic action. Reduced compressor output, excessive drain on the air line, moisture or restrictions in air pipes or the use of hose connections of improper size may reduce air supply.

- 6.1.1. Jack up the car and drain old coolant.
- 6.1.2. After draining the coolant, lower the car.
- 6.1.3. Hang the tool under the bonnet.
- 6.1.4. Connect a suitable adapter to the radiator filler neck (fig 2), and connect the coolant refill hose to the adapter.
- 6.1.5. Put the coolant suction hose in the premixed coolant, and remain submerged under the surface the whole time.
- 6.1.6. Make sure all valves are closed and connect to air compressor.
- 6.1.7. Open the air valve and vacuum can be created (fig 3).
- 6.1.8. When no more vacuum can be created, turn off the air valve.
- 6.1.9. Open the coolant valve, and the coolant will be introduced to the cooling system automatically (fig 4).
- 6.1.10. Verify the coolant level, connect the original cap. Fast refill and no air bleeding

7. APPLICATIONS

The application below is for reference only. More vehicle applications are possible. Some car models may have Multiple suitable adapters due to variations in body style (e.g. sedan, hatchback, or cabriolet), engine size and Capacity (e.g. 1.6L, 1.8L, 2.4L), and engine numbers.

8. MAINTENANCE

- 8.1. When not in use, disconnect the air supply from the filler.
- 8.1.1. Clean the filler with a slightly dampened cloth and store it in a safe, dry, childproof location.

ENVIRONMENT PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.

Note: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice.

Important: No Liability is accepted for incorrect use of this product.

Warranty: Guarantee is 12 months from purchase date, proof of which is required for any claim.
