3. SAFETY INSTRUCTIONS

- WARNING!** Ensure Health and Safety, local authority and general workshop practice regulations are adhered to when using tools.
- DO NOT** use tools if damaged.
- Maintain tools in a good, clean condition for the best and safest performance.
- Ensure that a vehicle which has been jacked up is adequately supported with axle stands.
- DO NOT** attempt to start engine or move vehicle whilst in gear, with locking devices fitted.
- Always display a warning notification on steering wheel when timing engine components.
- Wear suitable clothing to avoid snagging. **DO NOT** wear jewellery and tie back long hair.
- Wear approved eye protection. A full range of personal safety equipment is available from your Sealey dealer.
- Account for all tools, locking bolts, pins and parts being used. **DO NOT** leave them in or near the engine.
- When not in use, store in a safe, dry, childproof location.
- WARNING!** Incorrect or out of phase camshaft timing can result in contact between valve head and piston crown causing damage to the engine.
- WARNING!** The warnings, cautions and instructions in this manual cannot cover all possible conditions and situations that may occur. It must be understood by the operator that common sense and caution are factors which cannot be built into this product, but must be applied by the operator.
- IMPORTANT:** These instructions are provided as a guide only. Always refer to the vehicle manufacturer's service instructions, or a proprietary manual, to establish the current procedure and data.

NOTE: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice.
