

FORD

STANDARD PARTS LIST

1. VS802 Door Lock Remover/Installer

Applications

FORD:- Fiesta / Scorpio 1995 Onwards

Introductions

The VS802 is essential for removing/installing door locks on the above models. The tool operates by locating into the holes positioned on the outer edge of the door lock holding plate and requires a 1/4 turn to release the lock (conversely a 1/4 turn in the opposite direction secures the lock into the holding plate).

The VS802
