

Designed for the safe removal of steering wheel airbags. Suitable for use on Audi, BMW, Mercedes, Seat, Skoda and Volkswagen vehicles.

Thank you for purchasing a Sealey product. Manufactured to a high standard this product will, if used according to these instructions and properly maintained, give you years of trouble free performance.

IMPORTANT: PLEASE READ THESE INSTRUCTIONS CAREFULLY. NOTE THE SAFE OPERATIONAL REQUIREMENTS, WARNINGS & CAUTIONS. USE THE PRODUCT CORRECTLY AND WITH CARE FOR THE PURPOSE FOR WHICH IT IS INTENDED. FAILURE TO DO SO MAY CAUSE DAMAGE AND/OR PERSONAL INJURY AND WILL INVALIDATE THE WARRANTY. PLEASE KEEP INSTRUCTIONS SAFE FOR FUTURE USE.

1. SAFETY INSTRUCTIONS

Caution! Airbags and pretensioners contain explosives and can be dangerous if not handled correctly. Work on airbag systems should be carried out by a trained and competent person.

- WARNING!** Ensure Health & Safety, local authority, and general workshop practice regulations are adhered to.
- ✓ Explosive devices are subject to national laws which must be followed. These include requirements on storage and transportation.
- ✓ Observe component manufacturer's instructions for safety, handling and installation/removal.
- ✓ Store removed explosive devices in a locked area away from other hazardous materials.
- ✗ **DO NOT** expose systems to temperatures above 80°C.
- WARNING!** Use only diagnostic testers to diagnose faults. **DO NOT** use multimeters or test lamps etc. on active airbag (SRS) systems, as this may cause accidental deployment. Disconnect all explosive devices before checking wiring with a multimeter. Read, understand and apply the safety instructions.

Caution! Always refer to manufacturer's instruction before working on airbag (SRS) systems.

2. INSTRUCTIONS

- Ensure ignition is switched OFF and remove key from ignition.
- Never use a memory saving device.
- Disconnect the battery leads.
- Wait at least 30 minutes after disconnecting the battery leads before working on the system.
- When fitted, lock pretensioners.
- Never attempt to repair airbag wiring or components.
- Never use analogue test meters or test lamps on active airbag (SRS) systems, as this may cause accidental deployment.

When working on deployed airbags

Always wear gloves and eye protection when working on deployed airbags because chemical residue can cause skin irritation. Skin that comes into contact with a deployed airbag should be washed with soap and water immediately.

Re-arming

Before re-arming make sure the vehicle is unoccupied.
Check correct operation of airbag (SRS) warning lamp.

NOTE: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice. **IMPORTANT:** No liability is accepted for incorrect use of product. **WARRANTY:** Guarantee is 12 months from purchase date, proof of which will be required for any claim. **INFORMATION:** For a copy of our latest catalogue and promotions call us on 01284 757525 and leave your full name and address, including postcode.
